

# Acton Announces - Stimulus Price Reduction GSA Contract GS-07F-9473S

## ACTON MOBILE INDUSTRIES

*The Value Leader in Temporary Space*

In an effort to help with the stimulus concept and to offer our government customers and their contractors a savings during these difficult times, Acton Mobile Industries has temporarily reduced their rental pricing under the terms of its current GSA contract. This price reduction was effective on March 16, 2009 and will remain in effect until further notice. Our current reduced pricing is reflected in our posting on GSA ADVANTAGE.

Acton has 21 branch offices throughout the US with inventory readily available for immediate shipment. The new or re-started construction projects now funded by the stimulus project will need temporary space as construction offices or to house personnel during renovations, relocations, etc..

A phone call to the office nearest you (800-251-1600) will put you in touch with an Acton Sales Consultant who can help you with selection and delivery of your temporary space needs. Our goal is to see that you as the contracting officer and the end user as your customer are completely happy with your Acton transaction.
